**Subject:** RE: Formaldehyde assessment: Supplemental Information attached

Jim,

I would like to volunteer for this.

-Hui-Min

**Subject:** RE: Formaldehyde assessment: Supplemental Information attached

Hello ADME Group,

**Ex. 5 Deliberative Process (DP)**

**Ex. 5 Deliberative Process (DP)**

I need, at a minimum, two volunteers for this task. I will volunteer for this task so we need one more, at least. Timing: I would like comments back to me within two weeks to compile with mine. This should be adequate time.

Any volunteers?

Jim

**Subject:** Formaldehyde assessment: Supplemental Information attached

Hello again, everyone – Attached you will find the Supplemental Information file for Formaldehyde. Please read Andrew's note below for information about the state of the file.

## Ex. 5 Deliberative Process (DP)

When your disciplinary workgroup has developed its recommendations, please send them to Barbara Glenn and Andrew Kraft, with copies to David Bussard, Gina Perovich, Charlie Ris, Bob Sonawane, and also to me so I can keep track of the progress of the section reviews.

Thank you again for your help in reviewing this assessment that is critical to the IRIS program.

-- Vince

**Subject:** RE:

Please find attached the file containing the Supplemental Information to the formaldehyde Toxicological Review. Similar to the TR, this document has numerous comment bubbles, including materials in process and yet to be inserted.

## Ex. 5 Deliberative Process (DP)

Regards,  
Barbara and Andrew

PS: It remains unclear how the recent Endnote + Litciter updates pushed to all personnel will affect performance (as portions of both documents have been "HEROized")

**Sent:** Monday, July 01, 2013 5:40 PM  
**To:** Cogliano, Vincent  
**Cc:** Bussard, David; Perovich, Gina; Sonawane, Bob; Kraft, Andrew  
**Subject:**

The draft toxicological review for formaldehyde is attached. A file containing supplemental information will be sent later today (we have encountered problems inserting portions, complicated by the problems with Outlook that occurred today). We (the formaldehyde team) are looking forward to participating in the review process and anticipate a stronger product as a result.

## Ex. 5 Deliberative Process (DP)

Instead of extensive track-changes in the files, providing editorial comments in comment bubbles will be more helpful for revisions because the document is not static at this point.

Regards, Barbara and Andrew
